C. WE MAY USE AND DISCLOSE YOUR INDIVIDUALLY IDENTIFIABLE HEALTH INFORMATION (PHI) IN THE FOLLOWING WAYS

The following categories describe the different ways in which we may use and disclose your PHI.

- 1. Treatment.** Our practice may use your PHI to treat you. For example, we may ask you to have laboratory tests (such as blood or urine tests), and we may use the results to help us reach a diagnosis. We might use your PHI in order to write a prescription for you, or we might disclose your PHI to a pharmacy when we order a prescription for you. Many of the people who work for our practice – including, but not limited to, our doctors and nurses – may use or disclose your PHI in order to treat you or to assist others in your treatment. Additionally, we may disclose your PHI to others who may assist in your care, such as your spouse, children or parents. Finally, we may also disclose your PHI to other health care providers for purposes related to your treatment.
- 2. Payment.** Our practice may use and disclose your PHI in order to bill and collect payment for the services and items you may receive from us. For example, we may contact your health insurer to certify that you are eligible for benefits (and for what range of benefits), and we may provide your insurer with details regarding your treatment to determine if your insurer will cover, or pay for, your treatment. We also may use and disclose your PHI to obtain payment from third parties that may be responsible for such costs, such as family members. Also, we may use your PHI to bill you directly for services and items. We may disclose your PHI to other health care providers and entities to assist in their billing and collection efforts.
- 3. Health Care Operations.** Our practice may use and disclose your PHI to operate our business. As examples of the ways in which we may use and disclose your information for our operations, our practice may use your PHI to evaluate the quality of care you received from us, or to conduct cost-management and business planning activities for our practice. We may disclose your PHI to other health care providers and entities to assist in their health care operations.
- 4. Appointment Reminders.** Our practice may use and disclose your PHI to contact you and remind you of an appointment.
- 5. Treatment Options.** Our practice may use and disclose your PHI to inform you of potential treatment options or alternatives.

6. Health-Related Benefits and Services. The practice does not receive any compensation in connection with communications with patients about its products and services, except that the practice may communicate with patients about prescription drugs or biologics and receive payment from the manufacturer that is reasonable in amount and compensate the practice for the cost it has incurred in connection with the communication, mailing lists and/or actions related to such communication. Except for communications about drugs or biologics, the practice will first obtain the patient's authorization if the practice will receive direct or indirect payment for communication with the patient. The practice will communicate with patients about products or services and encourage the purchase or use of the product or service only for treatment purposes, or for case management, care coordination, or to recommend alternative therapies, providers or settings of care.

7. Release of Information to Family/Friends. Our practice may release your PHI to a friend or family member that is involved in your care, or who assists in taking care of you.
